Water fountain
Bike racks
Catering premises

Access – Doors

- > Glazed double doors:
H 2.25 m - W 1.80 m.
- > 1 extra-wide glazed door:
H 2.25 m – W 2.35 m

Lighting

- > Lighting by 30W LED panels
divided into 4 separate circuits
(2 for the hall and 2 for the
mezzanine). *Lighting use
invoiced separately.*

Heating

- > Hall heated by circulation of warm
air using air treatment units and a
gas boiler. *Heating use invoiced
separately.*

Electricity

- > Electricity distribution from walls
and pillars.
- > Possibility of having a range of
electricity outputs in the hall (on
order): from 3 kW single phase to
20 kW three-phase + neutral (i.e.
from 16 to 32 amperes).

Sound

- > Speaker system throughout
the hall for public address
announcements.

Rigging

- > 99 metal beams each fitted with
3 hoist rings. Each ring can hold
up to 500 kg, with a maximum
load of 1.5 tonnes per beam.
- Each request for rigging points
will be examined in detail by our
technical services. *A load plan in
DWG format must be supplied at
least 3 weeks before the beginning
of event set-up. An approved body
must check the plans.*

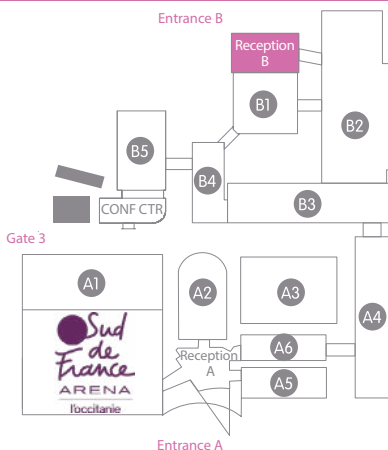

Telephone/Internet (on quotation)

- > Internal phone network (private
automatic branch exchange) –
dial 0 to phone out.
- > Internet connections possible:
wired or Wi-Fi networks.

Water

- > Water supply through floor
(trenches, diameter 32) with or
without sink (15/21 fitting).

ELEVATION
